1. Introduction & Background

The reviewed 2019/20 Integrated Development Plans (IDP's) for all municipalities in the District were prepared and adopted in terms of provisions of the Local Government: Municipal System Act of 2000 and the Local Government: Municipal Finance Management Act of 2003.

These strategic plans were reviewed and adopted in consultation with various stakeholders and communities to guide and inform all planning, budgeting, management and decision making in the district for the 2019/20 financial year.

Integrated Development Plans are not developed to inform the municipalities only, but are also supposed to guide the activities of any agency, all spheres of government, NGO's and CBO's, private sector, State Owned Enterprises (SOEs) and any other interested entity within and outside the municipal area.

This Framework outlines the manner in which the John Taolo Gaetsewe District Municipality and its three constituent Local Municipalities will undertake the 2020/21 IDP Review Process.

2. Legal and Policy Context

In terms of Section 34 of the Municipal Systems Act, a municipal council –

- (a) must review its integrated development plan –
 - (i) annually in accordance with an assessment of its performance measurements in terms of section 4(i), and
 - (ii) to the extent that changing circumstances so demand, and
- (b) may amend its integrated development plan in accordance with a prescribed process.

Section 27 of the Local Government: Municipal Systems Act 32 of 2000 further states that each district municipality must adopt a framework for integrated development planning in the area as a whole, and it must be agreed upon by both local municipalities and district municipality. It is therefore against these requirements that it is important to develop the IDP review framework or approach to ensure coordination and alignment in the whole IDP review process by all role players.

3. District Framework

The IDP District Framework is informed by certain responsibilities entrusted to district and local municipalities in terms of legislation. It is therefore prepared jointly by all the municipalities within the John Taolo Gaetsewe District with the district playing a leading role.

The objectives of this district IDP framework include:

- i. To serve as a guiding model for the 2020/21 IDP process for John Taolo Gaetsewe and its three constituent local municipalities;
- ii. To involve and integrate all relevant role players;
- iii. To bring about cooperative governance, alignment and coordination of development planning at local government level; and
- iv. To ensure that needs and voices of communities and interested groups within John Taolo Gaetsewe district are identified, acknowledged and addressed.

The framework is binding on all municipalities in the IDP process.

4. The Review Process

The annual IDP review process relates to assessing the municipality's performance against organizational objectives as well as implementation delivery. An IDP is reviewed in the light of changing internal and external circumstances that impact on the priority issues, objectives, strategies, projects and programmes of the IDP. The annual revision of the IDP must inform the municipality's financial and institutional planning and most importantly, the drafting of the annual budget.

An IDP should be reviewed in order:

- i. To ensure its relevance to the Municipal strategic plan;
- ii. To inform other components of the municipal business process, including institutional and financial planning and budgeting;
- iii. To inform the cyclical intergovernmental planning and budgeting cycles; and
- iv. To reflect the impact of successes as well as corrective measures to address problems.

As per legislative requirement, an adopted IDP is submitted to the MEC of Cooperative Governance, Human Settlement and Traditional Affairs for comments. These comments will be incorporated during the review process to influence the finalization of the process. However, it is necessary that they are received in time to allow municipalities' ample time to process and put them in effect.

The review process will be conducted according to the approved IDP/Budget/PMS process plans as developed by individual municipalities.

Learning from the past experience, it is important to review the process plan where there's a need for improvement and adjustment. It is therefore important to highlight institutional issues, process issues and content issues that the review process should incorporate to ensure that the IDP process is:

- Strategic
- Implementation oriented
- Participatory
- Integrated

5. Institutional issues

- ❖ This might include revisiting the nature and terms of reference of existing IDP structures to ensure their functionality.
- ❖ Process issues include looking at the overall events and processes as they transpired during the IDP process. This also includes mechanisms to ensure co-ordination and overall alignment process.

6. Content Issues

The review will focus and be influenced by the following areas:

- ❖ COGHSTA MEC's comments
- ❖ Improvement on the IDP/Budget/PMS process and content based on the previous performance
- ❖ Change in legislation and policies
- ❖ Amendments in response to changing circumstances
- ❖ Adjustment of powers and functions

The output is a reviewed IDP comprising of a number of components including:

- ❖ Reviewed and developed municipal sector plans
- ❖ Reviewed, reprioritized and new programmes and projects based on new information and availability of funding, in line with national targets.
- ❖ Improved system of performance management, monitoring and evaluation.

The DCoG IDP guide format should be used by all municipalities to ensure standardization of IDPs.

7. Institutional Arrangements

Before the review process commences, it is important that certain institutional arrangements be made to ensure that the process is managed well. An action programme for the process indicating main activities, resources and time frames must be put in place, coupled with assigned roles and responsibilities.

The following are the proposed structures which will guide the IDP Review Process:

- **IDP Management Committee/Forum** (Management, IDP Managers/Officers)
- **Budget Management Committee/Forum** (Municipalities' Chief Financial officers/Budget officers)
- **District IDP/Budget Steering Committee/Management Team** (Executive Mayor, identified Members of Mayoral Committee, Municipal Manager, IDP/PMS Manager, Chief Financial Officer,)
- **District Planning Forum** (District and Local Managers responsible for planning (IDP and Spatial Planning), representatives from other forums such as the Integrated Infrastructure Forum and LED Forum, and representatives from Provincial and National Sector Departments)
- **IGR Forums** (Mayors Forum, Municipal Managers Forum)
- **IDP Lekgotla** (Mayors and Councillors from all Municipalities, Senior Management and Planners from all Municipalities, Public Sector (Sector Departments), Private Sector and Civil Society.
- **IDP Representative Forums** (Forums similar to the District Planning Forum, but aimed at the specific local municipal area concerned)
- **Cluster Teams** (Technical, LED, Social & Governance – Directors and Heads of Portfolios)

8. Roles and Responsibilities

9. Monitoring

Monitoring in the context of IDP review refers to the gathering of data and the subsequent organizing of data into sets of information about certain actions/situations throughout the year as well as monitoring the implementation of programmes during the course of the financial year.

The following three main bodies of information are important as input to the review process:

- Information about the achievement of objectives set in the IDP
- Information on the implementation of programmes and projects by all spheres of government through a series of indicators such as completion time frames, use of resources, etc.
- New or changed information such as:
 - Baseline data on demographics
 - New policy and legislation
 - Budget information from external sources and municipal budget reviews
 - New development and trends
 - Changes in the existing situation due to unexpected events such as natural disasters
 - New investment opportunities
 - Inputs from stakeholders

This information needs monitoring and recording throughout the year for consideration in the review process. All Locals have responsibilities to monitor their own Process Plans and to ensure that the District Framework is properly followed. If deviation from the Framework is experienced, the following procedure should be adhered to:

- Each Municipality will inform the District on deviations from the Action Plan that affect district-wide activities.
- All Municipalities have to be consulted and agree on the framework before it can be amended.

10. Mechanism for alignment

Both **horizontal and vertical alignments** will be ensured in the review process. Horizontal alignment will be between the district and local municipalities to ensure that planning activities and processes are coordinated and addressed jointly. Vertical alignment on the other hand will be between local government, the province and national governments, as well as SOE's or service providers to ensure that the IDP's are in line with the national and provincial policies and strategies, so that it is considered for the allocation of departmental budgets and conditional grants.

The District Municipality is given more responsibility to ensure that both alignments happen, however all role players should support and partake in the alignment process. The Province should also play an important role as a coordinator to ensure alignment above district level and between districts within the province.

To manage alignment, all municipal structures should actively play a major role in coordinating information including progress reports on all programmes implemented in the entire district. The office of the District Municipal Manager will ensure that the alignment mechanisms are properly followed and that all clusters are fully functional. Existing intergovernmental structures including clusters should be utilized to ensure integrated planning and alignment.

Sector departments should also be involved in the IDP process from the first phase to ensure improvement on all IDPs within the District; ensure that IDP Managers are well capacitated; that national and provincial programmes and projects are included in the municipal IDP's; and most importantly that they are implemented. Cluster meetings, IDP Regional and local IDP Representative Forum meetings will be used as platforms for information sharing and progress reporting on all programmes planned and implemented in the District.

IDP review programmes or actions from the Provincial Departments, e.g. Department of Cooperative Governance, Human Settlement and Traditional Affairs should be aligned with the activities as reflected in the municipal process plans. It is also to ensure that all municipalities within the District align their strategies with those of the National and Provincial government.

11. Communication

The following mechanisms and procedures for will be used to promote Stakeholder Participation during the IDP Review Process:

- Media such as the local newspapers, ward meetings, local radio stations, municipal bills etc. will be utilized to inform communities and stakeholders of Council's intention to embark on the IDP process.
- The Mayoral Committee and the Political Office will be requested to identify a list of possible stakeholders.
- All messages/information will be conveyed in a language/s understood by the general community.
- The correct venues and times for public meetings will be communicated in advance.
- Furthermore, the municipality intends to ensure that meetings are held at such times that all stakeholders can attend.
- Adequate time will be allowed within limits to representatives of organizations to report back to their relevant organisations.
- Adequate time will also be allowed for the community and organisations to report back on the draft IDP document.
- Stakeholders will be invited to the relevant Council meeting and the approved IDP document will be available at all public libraries within the municipal area of jurisdiction and where feasible on request after approval. In addition, the IDP can also be accessed on the website of the municipality.
- Community Consultation on a regular basis, council engages in community consultation meetings in an endeavor to:
 - give feedback on progress in relation to the level of development;
 - gather inputs from communities in relation to service delivery needs;
 - disseminate information on the roles and responsibilities of the municipality.
 - The local municipalities do community consultation meetings. These community consultation meetings are normally held in all the wards between September and October of every financial year.
- IDP/PMS Representative Forum and District Planning Forums. It is envisaged that the IDP Representative Forum meetings will be held on a quarterly basis i.e. four (4) IDP Representative Forums per financial year. The schedule of these meetings will be included in the process plan of the local municipalities and the District IDP Framework. The District Municipality will not engage communities directly, but will rely on the consultation processes of the local municipalities as well the respective IDP and IGR Forums.

12. Binding Legislation, Policies, and Planning requirements at National, Provincial and District Spheres of Government

- The Constitution of the Republic of South Africa (Act 108 of 1996)

16. Priorities

The priorities for the District are as follows:

- Water & Sanitation
- Roads & Transport
- Local economic development (LED)
- Land development and reform
- Integrated human settlements
- Sustainable Development Orientated Municipality
- Environmental management and conservation and climate change management
- Promotion of health in the District
- Disaster management

These priorities are intended to guide development planning in the District. All stakeholders should align their planning with the above priorities.

17. Conclusion

This framework is binding on all municipalities within the District. The whole process with timeframes, monitoring, alignment, binding legislations, policies and planning requirements will have to be followed by all Municipalities. The development priorities will guide all development planning in the District.
